- White Medium Envelope Flap with coordinating DSP 2 ¼" x 6" – All cards use either the pattern side, or the gold embossed side of Bloom Boutique DSP

INSTRUCTIONS: Feel free to make just one color of card at a time or go assembly line method to attach the same piece to each card one right after another to make the set of 5 cards.

- Prepare card base and score fold with Bone Folder.
- Adhere Layer 1 of Basic White to card base with Stampin' Seal.
- Adhere Layer 2 of Designer Series Paper (DSP) with Stampin' Seal.
- Adhere Layer 3 of Basic White to card base with Stampin' Seal aiming for equal margins top and bottom and side to side.
- Adhere Layer 4 of Designer Series Paper (DSP) with Stampin' Seal.
- Layer 5 of Basic White - use the retired Banner Triple Punch or fussy cut the banner end with scissors.
- Layer 6 of DSP - using the retired Banner Triple Punch or fussy cut the banner end with scissors after you have aligned the bottom edge of the DSP to match the banner edge so a matching cut happens, taking into consideration the 1/16th margin on both sides vertically. When the banner ends of both pieces look good, adhere the two tag pieces together. Use your paper trimmer to cut off the excess of Basic White at the top of the tag allowing for a 1/16th top margin of the Basic White.

- Use a small round bottle about 1" in diameter to tie your ribbon bow around. Once you are happy with your bow, slide the bow off the bottle and snip the back of the loop. Affix a glue dot to the back of the bow's knot and center the bow about 1/2" down from the top of the tag. Wrap the cut ends to the back of the tag and affix with scotch tape. Apply Dimensionals to back of tag and align the top edge with the top edge of Layer 1 and about 3/4" over from the left edge of Layer 3.

- Die cut Layer 7 the scalloped edge tag with your die cutting machine.
- Punch Layer 8 with the Rounded Rectangular Punch.
- Choose which Scalloped Blooms stamp and matching inner sentiment you want to use for the card and place the stamps on clear stamp blocks. With the Memento Tuxedo Black ink, stamp Layer 8 punched tag and the left front of the envelope with the same occasion stamp. On the inner layer of Basic White stamp your matching sentiment. **HINT:** If using the Thinking of You stamp, you can ink just the “Thinking” first, letting the rest of the stamp hang off the edge of the ink pad. Then add “of you” the same way below “Thinking” on the Basic White tag.
- Also, on the inner layer of Basic White adhere the ½” strip of DSP and trim off any excess if the edges don’t match exactly. Then adhere the inner layer to the card base.
- Adhere Layer 8 to Layer 7, then affix two Dimensionals to the right side back of the tag and then adhere Stampin’ Seal to the left side back so you can place the finished tag partially on the banner, trying to match a ¼” margin on the right side of Layer 3.
- Apply 3 matching In Color Dots to Layer 8 around the stamped words with Take Your Pick Tool.
- Adhere and trim the DSP for the Basic White Envelope to match.
